AVK FLEX DRAIN, FULL SIZE Ø145

80/60-001

Model Plus L / FS for hydrants DN 80 / 100

AVK offers various types of Flexdrains which can be easily installed around underground hydrants or air valves. AVK Flexdrains prevent dirt obstructing in- and outlets and enable sufficient drainage of water after using the hydrant. This avoids water remaining inside the hydrant preventing it to freeze or break. AVK Flexdrains are made of high grade polypropylene making them lightweight, easy to handle and recyclable.

Product description:
Full size synthetic flex drain CO 145 for underground hydrants

Features:

- Easy installation with snap closure, no tools required and low weight
- 100% recyclable
